

## ANTHONY M. SENSOLI, MD

### *Your visit here*

"My goal is to make your visit to our office an enjoyable experience. From the minute you walk in the door, you will be treated with kindness and respect. My highly trained staff will assist me in delivering the best care available anywhere. We continue to invest in the latest technology so we can deliver cutting edge eye care. I always try to explain things in simple terms that are easily understood. Feel free to ask questions anytime during your visit. By the time you leave our office, you should have a clear understanding of your diagnosis as well as the treatment plan that works best for you."

**Research Interests:** Laser Vision Correction Outcomes, Cataract Surgery Incisions

### *Experience the difference*

"Over the last 10 years, I have performed over 8,000 no stitch, no patch, no shot, cataract surgeries. My patients have no restrictions after cataract surgery. They can golf, garden, and return immediately to the things they enjoy most.

As a LASIK surgeon, I have performed over 7,000 LASIK procedures since the Excimer Laser was approved in 1997. I had LASIK surgery myself and for the last 8 years have enjoyed life without glasses and am better than 20/20 vision. LASIK surgery has been wonderful for me, and I am happy I can deliver this terrific technology to my patients."
